**ASSEMBLY BILL 294**

JOINT LEGISLATIVE COUNCIL PREFATORY NOTE: This bill was prepared for the Joint Legislative Council's Special Committee on Building Wisconsin's Workforce.

This bill creates a lifelong learning accounts program. Under the program, a lifelong learning accounts plan, and the accounts established and administered under the plan, must be approved by the Department of Workforce Development (DWD).

Under the program, a participating employee makes contributions to his or her lifelong learning account and a participating employer may make matching contributions to that account, but must make matching contributions of at least 25 percent of the amount contributed annually by the employer's participating employees in order to be eligible for the lifelong learning tax credit created under the bill. A participating employer that makes matching contributions must base those contributions on a percentage of a participating employee's annual contribution and must apply the same percentage to each participating employee. The combined contributions of the employer and employee may not exceed \$5,000 annually, as indexed for inflation, and contributions may not be made to an account with a balance in excess of \$25,000, as indexed for inflation.

Employee and employer contributions may be subtracted from the employee's or employer's taxable income, respectively. An employer may claim a nonrefundable income tax credit for certain contributions to the lifelong learning accounts of its employees if the employer matches at least 25 percent of the amount contributed annually by the employer's participating employees. The account must be used to pay for qualified education expenses. If a withdrawal from the account is made for any other purpose, the holder of the account incurs a penalty, unless the holder is 70 years of age or older, in which case the withdrawal is taxed as ordinary income.

**ASSEMBLY BILL 294****SECTION 20**

A plan or account must be approved by DWD if it satisfies the criteria outlined in this SECTION. A participating employer must provide information to DWD that DWD determines is necessary for approval of a plan or account. DWD must establish a program to provide information to participating employers and eligible employees about the lifelong learning accounts program.

A participating employee may withdraw the participating employee's contribution to the account at any time for any purpose. Generally, however, if an amount is withdrawn for a purpose other than to pay qualified education expenses, the account incurs a penalty. "Qualified education expenses" is defined in this SECTION as expenses for tuition and fees, books, equipment, and tools or supplies that may be retained by the employee relating to a course of instruction provided by a postsecondary educational institution that is accredited to the satisfaction of DWD and moneys transferred from a participating employee's account to the participating employee's account established under the plan of another participating employer. "Qualified education expenses" does not include expenses for meals, lodging, transportation, or any course or other instruction involving sports, games, or hobbies.

5 (1) of the statutes no later than the first day of the 4th month beginning after the  
6 effective date of this subsection. Notwithstanding section 227.137 (2) of the statutes,  
7 the secretary of administration may not require the department of workforce
