SENATE BILL 211

JOINT LEGISLATIVE COUNCIL PREFATORY NOTE: This bill was prepared for the Joint Legislative Council's Special Committee on Strengthening Wisconsin Families.

Under current law, the Department of Children and Families (DCF) distributes grants for the prevention of child abuse and neglect under a program commonly referred to as "Family Foundations." DCF may distribute this funding to six rural counties, three urban counties, and two Indian tribes.

The amount of funding that each county (other than a county with a population of 500,000 or more; currently, only Milwaukee County) or Indian tribe receives in excess of the \$10,000 minimum grant amount is based on the number of births funded by medical assistance (MA) in that county or in the reservation of the tribe in proportion to the number of MA-funded births in all counties and the reservations of all tribes selected to participate in the program. Milwaukee County's grant award is based on 60 percent of the number of MA-funded births in that county in proportion to the number of MA-funded births in all counties and the reservations of all tribes selected to participate in the program.

Except for Milwaukee County, the grant funds may be used for a home visitation program for first-time parents who are eligible for MA and to support the cost of case management. In all counties and tribes, grants may also be used to provide intervention services and flexible funds to participating families for appropriate expenses. DCF is required to provide technical assistance and training to programs receiving a grant.

The bill makes the following changes to current law:

- Provides that a private agency may participate in Family Foundations.
- Deletes the provision requiring funding to be distributed to six rural counties, three urban counties, and two Indian tribes.
- Deletes references to Milwaukee County so that Milwaukee County may use grant funds to provide home visitation and case management services.
- Requires counties, private agencies, and Indian tribes that receive a grant to agree to match at least 25 percent of the grant amount annually in funds or in-kind contributions.
- Deletes the current formula for determining the amount of a grant in excess of the minimum \$10,000 grant amount and instead requires DCF to determine the amount of a grant in excess of \$10,000 based upon the number of MA-funded births in the county, the area in which the private agency is providing services, or the reservation of the tribe.
- Provides that if a family with a child identified as being at risk of abuse or neglect has been continuously receiving home visitation program services for not less than 12 months, those services may continue to be provided until the child reaches three years of age, regardless of whether the child continues to be eligible for MA.
- Requires that DCF give favorable consideration in the application process for a grant to a county, private agency, or Indian tribe that submits a joint application.
- Requires a county, private agency, or Indian tribe, when applying for a grant, to provide information on how the applicant's home visitation program incorporates practice standards and critical elements that have been developed for successful home visitation programs by a nationally recognized home visitation program model and that are acceptable to DCF.
- Requires a private agency that applies for participation in Family Foundations to submit documentation with the grant application that demonstrates that the application is supported by a county and that a county will collaborate with the private agency in providing services.

SENATE BILL 211

- Requires DCF to evaluate the availability of home visitation programs in the state and determine whether there are gaps in home visitation services. DCF must then cooperate with counties, private agencies, and Indian tribes providing home visitation programs to address any gaps identified.

- Requires each county, private agency, and Indian tribe providing a home visitation program to collect and report data as required by DCF, using forms prescribed by DCF.

- Requires each county, private agency, and Indian tribe providing a home visitation program to develop a plan for evaluating the effectiveness of its program for approval by DCF. The bill sets forth outcomes that must be tracked and measured. The evaluation must be used to improve the quality and outcomes of the home visitation program.

- Provides that training provided by DCF to counties, private agencies, and Indian tribes participating in the program may not be limited to a particular home visitation model. Requires the training to include training regarding basic skills, uniform administration of screening and assessment tools, the issues and challenges that families face, and supervision and personnel skills for program managers. The training may also include training on data collection and reporting.

- Requires DCF to cooperate with the Child Abuse and Neglect Prevention Board to ensure that employees and managers of home visitation programs receive training and other services to develop and maintain competencies in providing home visitation services to families.
